# English Assessments Made Easy

At Essential Assessment, we simplify English assessments by offering a curriculum-aligned approach that empowers you to:

- Discover what your students know and their next steps
- Design explicit, whole-class, and personalised literacy instruction
- Drive a positive, data-informed culture focusing on student growth

Essential Assessment ensures students' unique learning needs are catered for while building assessment capability and celebrating language, literature, and literacy growth.

## Discover what your students know

Identify misunderstandings and determine the next steps in your students' English learning journey.

- Aligned Assessments: Use curriculum-aligned assessments to deepen each child's understanding
- Identify Misunderstandings: Pinpoint areas requiring attention to address learning needs
- Support Growth: Reveal each student's Zone of Proximal Development to guide progress

## Design your literacy instruction

Turn actionable data into impactful teaching.

- Use real-time data insights to inform explicit instruction and address learner variability
- Utilise *My Literacy* tasks and individual learning goals to encourage your students to review and reflect on their learning
- Create a meaningful connection between instruction and assessment to boost growth

## Drive literacy growth

Celebrate success and build on achievements.

- Draw upon post-assessment data to reveal growth and identify future learning priorities
- Share progress with students, parents, and leaders using clear, curriculum-aligned insights
- Rely on accurate data to support your decision-making and foster a consistent approach across your school

"Awesome resource to use for targeted assessment of what the students have learnt and what they still need practice with. Love that it is linked to the new syllabus, and we can access targeted worksheets to suit individual student needs."

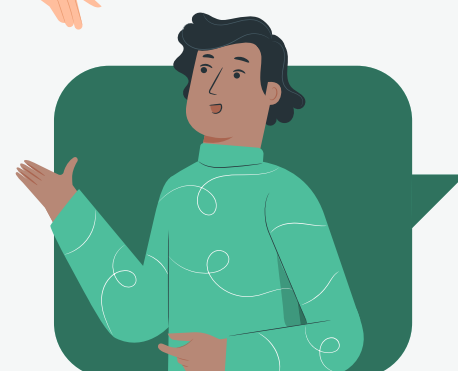

Teacher - Blue Hills College (NSW)

"Gone are the days when teachers had to rely solely on marking student work to assess progress. With technology like EA, we can supplement traditional marking methods, allowing much of the assessment to be automated. The precious resource of teacher time can be then used for more useful tasks."

Teacher - Wesley College,  
St Kilda Road Campus (VIC)

"We have used Essential Assessment to enhance the explicit teaching in our current English units by pinpointing the content areas to focus on. The curriculum resources and *My Literacy* help us to target "focus" students who had gaps in their understanding or to provide the extra exposure to specific content areas."

Head of Languages -
